Why choose Mvac

Experience

- » The expertise of Canada's largest central vacuum manufacturer.
- » With over 30 years of experience in the development, manufacturing, and marketing of central vacuum systems, **Mvac** offers powerful and reliable power units.
- » The support of a strong authorized dealer network.
- » Our large service center network ensures the presence of a certified technician in your area.
- » Our experience and expertise allow us to offer the best central vacuum systems at a very competitive price.

Quality

- » High quality components.
- » All components, including the steel and the thermogardening paint, are carefully chosen to ensure the top performance and durability of the unit.
- » Our motors are designed for optimum performance, efficiency, and quietness.

Innovative technologies

- » The hybrid technology allows you to use your **Mvac** vacuum unit with or without a bag. It's your choice!
- » The AntiVibraSound system eliminates vibrations to keep operating sound levels to a minimum.

Outstanding warranty

- » Not only do we guarantee the unit body for life, the motors up to 15 years, and attachments for 5 years, we even guarantee your satisfactions!

Well-being

- » **Mvac** power units offer a unique versatility that allows you to choose at any time your filtration mode: with or without a bag, which both ensure superior air quality.
- » Even the most demanding clients are sure to find the central vacuum that perfectly meet their needs and expectations.

Exclusive attachments

- » Because the quality of our attachments is as important to us as our central vacuums, **Mvac** offers exclusive attachments, which optimize the performance and use of your vacuum cleaner.

Central Vacuum Motors in One Glance

See, compare, and make your choice!

Motor revolution (rpm) 24 265

Optimum serie

The *Optimum* series offers superior quality central vacuum units that have made Mvac's reputation.

Most Mvac units are perfectly designed for use with the **Retraflex® retractable hose system***.

AntiVibraSound System (AVS): This system eliminates vibrations with specially engineered components and state of the art soundproofing. This way, you may use your vacuum system at any time, without worrying about disturbing anyone.

Metal body for unparalleled **durability** and **sturdiness**.

Hybrid filtration and self-cleaning filter.**

Central vacuum system: a **wise** choice

What is a **central vacuum system**?

The Mvac central vacuum unit may be installed in the garage, workshop, basement or mechanical room. It is connected to a piping system installed within walls, floors, or even wardrobes to reach vacuum inlets strategically placed around the house.

Bien plus puissant qu'un appareil portable, l'aspirateur Mvac vous permet de tout nettoyer en profondeur en utilisant une foule d'accessoires pratiques et d'obtenir une qualité d'air sans égale grâce à son système de filtration haute performance.

Simple and pleasant to use

No more heavy appliances to drag, no more marks on your floors: you only use a light and easy-to-handle flexible hose. You will appreciate all the comfort that a central vacuum system offers, especially when the time will come to clean stairs, small spaces, or even large surfaces.

Easy to install

The installation of a central vacuum system can be easily done in an existing house as well as during construction. You may call on our certified specialists or install it yourself with the help of one of our installation kits and our DVD, which will guide you step by step.

A **filtration** system that suits **you**

Hybrid¹ technology

Mvac designed a versatile filtration system that perfectly suits today's fast-paced lifestyle: the hybrid filtration. Use our units with or without a bag; it's up to you! Your dust bag is full and you're out of spare ones? Simply remove it and use your system without a bag. How convenient! No matter how you choose to use your system, filtration is ensured by a HEPA type non-stick self-cleaning filter, and you are certain to benefit from a cleaner and healthier environment.

¹ Not available on M45 & M47 models.
